

## Workers Related Injury Release Form

Injuries sustained on the job are common. If you feel your injury or condition is work related, you have the right to file a claim under workers compensation. There are three ways RediCare accepts payment for work related injuries:

1. **Self Pay:** Employee pays the bill their self **OUTSIDE** of workers compensation. Once you as a patient elect to pay out of pocket we **CAN NOT** go back and change the visit to a worker's compensation visit. We also **CAN NOT** file the injury or complaint to your regular insurance.
2. **Employer Files Workers Comp Claim:** We will have to receive verification from your employer and have a claim number provided before proceeding with the visit. We will then file workers comp for the visit. In the event that workers comp disputes the injury or refuses to pay within 120 days then the bill will be the responsibility of the patient.
3. **Employer Pays The Bill In Full:** If the employer request not to file workers comp, the employer may pay for the visit in full using cash, check, or credit card at time of service. Cash discounted prices will be granted to patient is then responsible for the bill.

\_\_\_\_\_ I understand that I have the right to file a worker's compensation claim but have refused the opportunity to do this. \_\_\_\_\_ (Initial)

\_\_\_\_\_ I fully and freely admit that my injury of condition is NOT work related. \_\_\_\_\_ (Initial)

I have read the above workers compensation information about payments and my rights. I have checked the appropriate box and initialed regarding my issue. I understand the I **CAN NOT** change a previous visit to a worker's comp visit but can create a new visit for workers compensation if so desired.
